

**MURANO GLASS ACADEMY - COURSE**

Thanks to a teaching method that matured through over 20 years of experience in lampworking of beads, even absolute beginners from the very first day they can create their own beads and right out of their first jewelry.

While for those who already have experience in lampworking, Davide Penso offers more advanced techniques.

The lessons are therefore characterized by a professional edge in order to optimize production time. Marketing strategies and pricing of sale are covered in the lessons.

Students will be able to capture even the traditional technique of blowing in Murano glass beads of light.

Classes are organized personally by Davide Penso

Schools and institutes such as International school of glass Abate Zanetti of Murano Glass Boston University and Research of Bolzano use of constant teaching activities of Davide Penso.
